</table>

1. ____________and workers come together to make an airplane.

2. The wings have long and short ____________ parts.

3. The engines have metal ____________.

4. The engineers draw how the ____________ should be made.

Reading Comprehension

B. Circle Yes or No.

1. Artists plan the inside of the airplane.
   Yes  No

2. The wheels need to be strong.
   Yes  No

3. The body of the airplane is made in one part.
   Yes  No

4. Metal blades are found in the engines.
   Yes  No
Summary

C. Fill in the blanks with the words.

| light | wings | wheels | tape |

It takes a lot of planning and hard work to build a large airplane. First, engineers plan how to build it. They put the plan on a computer. The airplane is made in three parts using a strong and light 1)_______________. The tape is heated. As it gets hot, it becomes hard. When the outside of the body is finished, workers add parts to the inside. They put in the floor, windows, walls, and seats. Workers make the wings, too. The 2)______________ have long and short metal parts. Holes in the wings make them 3)______________. Airplanes also need engines. The engines have metal blades that turn very fast. That brings in air to help the airplane move. The 4) ____________ of the airplane must be strong. They have large tires. After all the parts are put together, it is time to paint the airplane. The airplane is ready to fly!

Title: _____leeping _____eauty

Word Study

Circle the correct words.
